If you or your family have been touched by Parkinson's Disease, you know the challenges of managing a degenerative, incurable illness.

Neuro Challenge Foundation for Parkinson's helps people with PD and their caregivers meet those challenges.

Established in 2008 in Sarasota, Florida, we have grown to provide more than 40 education and support programs each month throughout Sarasota, Charlotte, Manatee and Pinellas counties.

Neuro Challenge Care Advisors are the go-to source for advice and referrals tailored to individual and family needs.

Our annual Parkinson's Expo attracts more than 1,400 attendees and is one of the largest in the country. Our partnerships with local organizations ensure that critical resources for fighting PD and slowing its progression are available right in our members' back yards.

Plus, our blue ribbon Medical Advisory Committee facilitates physician education programs to increase understanding of PD among the local medical community.

There is never a charge for Neuro Challenge programs and services. And the demand continues to grow. That's why the support of our legacy society is so vital.

We invite you to help us continue our important mission by becoming a member of the Neuro Challenge Foundation for Parkinson's Legacy Society. Members designate support for Neuro Challenge Foundation in their wills, trusts, IRAs, life insurance, and other planned giving vehicles. Consult your attorney or tax advisor for the option that works best for you.

Our Legacy Society extends your commitment to support the Parkinson's community for years to come, without impacting your finances today.
